Roger Ma : The Vampire Combat Manual: A Guide to Fighting the Bloodthirsty Undead before purchasing it in order to gauge whether or not it would be worth my time, and all praised The Vampire Combat Manual: A Guide to Fighting the Bloodthirsty Undead:

1 of 2 people found the following review helpful. An important and needed book for those on the front line of Vampire hunting. By Joseph J. Truncala My focus lately has been on hunting Zombies but I have just begun running into the

other and more dangerous menace our society faces today, which is the obvious increase in the vampire population. Killing Zombies turned out to be easy because you could use just about anything as long as it penetrates the brain to kill it; however, killing vampires turns out to be more complex. I always suspected there were more than one species or types of vampires, but until I read this training manual I did not know there were so many variations. I also was amazed that my extensive martial arts and weapons background would be of little use against the vampires' strength and speed. I was, however, happy to hear that by making the wooden stakes pointy and sharp at both ends I could use either end like a long Yawara stick to ram into the vampire's heart to kill it. This 303 page manual is organized into six parts. The first part explores the many misconceptions and disinformation there is on the subject of vampires. The second section explains the anatomy of vampires. The importance of conditioning and preparation is covered in section three. The fourth section goes into detail on the weapons to kill vampires. Combat strategies and techniques are taught in section five and the last section explains the team-based combat tactics of killing vampires. In conclusion, if you are an authentic vampire hunter you need this highly informative manual before you get bitten on the neck by some seducer vampire. Rating: 4 Stars. Joseph J. Truncala (Author: Predator Hunter: A warrior's memoir) 0 of 0 people found the following review helpful. Five Stars By Charna Gross Great format, information and it's well written. 0 of 0 people found the following review helpful. interesting read By P. Edwards Good book. Just wish it would've went longer. I wasn't sure what to expect and was for the most part pleasantly surprised by the witness accounts in the book.

WHEN DARKNESS FALLS WHEN THE UNDEAD RISE WITH A HUNGER FOR BLOOD WHEN THE HUNT IS ON AND YOU ARE THE PREY WILL YOU BE READY? In the inevitable event of a vampire attack, the average citizen will be forced to engage in vicious hand-to-hand combat. To avoid serious injury, disfigurement, or death by exsanguination, you need to know the proper combat strategies and techniques to ward off a stronger, faster, more agile undead opponent looking to drain the life from your body. Are you prepared? With detailed illustrations and firsthand accounts from vampire combat veterans as well as interviews with actual members of the undead this manual provides you with the information you need to survive with your life and blood supply intact, including: Debunking myths, i.e.: vampire flight, animal metamorphosis, physical attraction to humans Crafting the most lethal vampire weapons from everyday materials The pros and cons of decapitation Weaponizing Ultraviolet (UV) light against an undead opponent Using the Domicile Histodiscordant Reaction (DHR), otherwise known as The Vampire Invitation, to your advantage Solo attacks, team-based combat, and much more The Vampire Combat Manual is your indispensable key to survival, whether in a one-on-one battle for blood or a face-off against multiple attackers. Don't wait until the sun goes down prepare yourself now!

"Stick with Roger Ma and you'll get out of this alive! The Vampire Combat Manual is a brilliant and highly practical guide to fighting back against every kind of bloodsucker! Highly recommended!"
