following review helpful. Getting old is funnyBy SHANThings are changing all around: food, cars, bodies, thinking, even our language. No one likes change, but it is inevitable so, ".we have to adapt. Repair what we can, endure what we must, and continue enjoying our lives." pg. 18The book is grouped into 9 fun categories such as, Going through the changes, Rounding the middle age corner, Living in the moment and more.Having been there, done that, Martha shares some very valuable information such as picking shoes that are more ah! than ooh!, understanding the 'new' language, guidelines for Seniors attending conventions, and many more fun chapters.Her humor shines through in ditties such as 'It's my body and I'll weep if I want to' or 'Hair Dresser' to the tune of the Candy Man. You will find yourself singing along and enjoying the fun!But it is so much more than humor. She makes us realize that each day is a gift, and birthdays especially should be celebrated.Sometimes we get so bogged down in life that we begin to let it pull us down and make us believe things are much worse than they are. She reminds us to take a step back, regroup and see life for what it truly is. A real taste of reality.We are encouraged to thank others for their encouragement to us, and then to pay it forward. "It costs nothing to be kind" pg. 247 and she even gives us a long list of ideas to get us started. We are so blessed, we need to stop and just take the time to count our blessings.Also shared throughout are profiles of comedians, writers and more asking each of them the same 5 questions, with some amazing answers. Some of these incredible people are Mark Lowry, Gene Perret, Taylor Mason, Jeff Allen, Chonda Pierce and more.I love this author! The stories she shares with such humor, are ones that hit very close to home, and have you laughing, outright, at times. It is a good, clean, funny read that will keep you reading from beginning to end, unless of course, life gets in the way. I give this book two thumbs up, and suggest you pick it up today and start laughing too.Thank you to bookfun.org for the opportunity to read this delightful e-book in exchange for an honest review.

In a world that is constantly changing, there is one thing that remains constant-the power of laughter. Since we can't stop all the changes that keep happening to our bodies and our world as we live life on the north side of fifty, we can still laugh and learn from them. So if you love recalling the fun and simplicity of yesteryear, if you enjoyed other humor books about "middle age" by Martha Bolton, then you'll love *The Whole World is Changing...and I'm Too Hot To Care*. You'll laugh, you might even cry, and even though you still won't be able to stop the world or your body from changing, after reading this light-hearted take on aging and life, the changes might not bother you as much.
