**From Hodder Stoughton : The Wit of Golf** before purchasing it in order to gauge whether or not it would be worth my time, and all praised The Wit of Golf:

He seemed to have liked the multitude of golf stories By Juli89 Bought this book for my husband who recently got into playing golf with his friends every once in a while. He seemed to have liked the multitude of golf stories, tales and jokes in this book. However, when the book arrived, it looked like it either has been sitting for a very long time in a bookshelf with people taking it out and read through it, as one would expect from a brick and mortar book store, or simply a gently used book. The cover was bent a little bit, had a few small tears and some stains. Since this book wasn't that expensive, I dealt with it. 1 of 1 people found the following review helpful. Comedic anecdotes, some funnier than others By Peter Durward Harris Sometime hilarious, sometimes merely amusing, this book is divided into chapters covering different aspects of the game or different events, although the groupings seem to be arbitrary. I like the piece where Fanny Sunesson can't quite get her pronunciation right and says bristols instead of bristles - but I think she won the exchange with Nick Faldo that followed. I also found it amusing (though absolutely right) that John Daly put his sponsors' needs ahead of President Clinton's following his win at St Andrews. There is also the story of a golfer who sent a shot into the rough. Wearing spikes hadn't ensured the accuracy of the shot. The golfer went to where the ball was and accidentally trod on a baby rabbit hiding in the undergrowth. The rabbit protested strongly - those spikes were painful, but the rabbit recovered. You definitely need to have an interest in golf to enjoy this book, but it's the kind of book that you can dip

in and out of whenever you have a spare moment.

Here is a bumper bag of humorous anecdotes and amusing tales from golf's best-loved personalities that proves golf is a funny old game—birdies, bunkers, and all!
