6 of 6 people found the following review helpful. not quite up to snuffBy CustomerVery nice pictures but the paper is poor quality. My 'guaranteed not to bleed through' staedtlers, bled through. It will be only pencils for this book. Use a higher grade paper and your book would be much better. Love that there are both pictures from the books and the movie as well as originals.2 of 2 people found the following review helpful. Granddaughter loves this coloring book!!!!!!By Kathleen IgoI can't say "I love it", because I ordered it and sent it straight to my 9 year old granddaughter who had recently been in a high school production of the Wizard of Oz as one of the Munchkins. But I've been told by her mother that SHE loves it!!! And that's the opinion that counts in my book.3 of 3 people found the following review helpful. Oz Color book OK but!!By Kindle CustomerA bit disappointed in this one. Image quality only fair, paper quality fair. Many of the images are not very inspiring. Some are interesting enough to color, many look better in the

original Black white. Buying blind is sometimes a problem. If I had seen it in person, would not have bough it.so far I have only colored a few, likely will not do any more of them.
