**Arcturus Publishing : The Wonders of Nature Coloring Book** before purchasing it in order to gage whether or not it would be worth my time, and all praised The Wonders of Nature Coloring Book:

0 of 0 people found the following review helpful. What you see is not what you get....By Mrs.Smith This book is the perfect example of "don't judge a book by its cover". I bought this book the first week it was released...of course, there were no reviews or pics of pages yet. And, at that time, there were no "examples" of any pages in the book...just a picture of the beautiful lion front cover. I love the style that the cover lion was drawn in, so I thought (hoped) that the drawings in the book would be in the same, or very similar, style. Boy was I wrong. Most of the pages are Shutterstock images that I have seen in tons of other books, with a few minor changes/additions. The drawings are very juvenile...cartoonish. Absolutely NOTHING like the cover picture. A huge disappointment. I've had the book for two months and haven't colored a page yet...and probably never will. The paper is the average, generic paper found in much less expensive books. Speaking of less expensive, for \$12.95 this book is grossly overpriced. Should be selling for 1/2 that. I guess you pay for the beautiful cover??? To me, taking into consideration the generic drawings, the style of the drawings (vs. the cover), and the quality of the paper...I wanted to give it 1 star, but I'm feeling generous today...2 stars it is. (Since I first typed this review, it seems the price has been lowered...not nearly enough...but lowered.)

The Wonders of Nature Coloring Book is a stylish adult coloring book filled with plants, animals, insects, and other imaginative scenes that can be colored in with colored pencil, markers, or crayons. More than just an average coloring book, the Zentangle-influenced outlines make coloring the included images a meditative activity in addition to the simple pastime most adults associate with coloring as an activity. When completed, these colored images can be repurposed as beautiful artwork shared with family and friends or they can simply become a colorful collection for the illustrator to admire.

About the Author Arcturus is among the world's leading publishers of coloring books for grown-ups with over 5 million copies sold in over 20 languages.
