Now that I'm much older, I realize most of this book is more humor-oriented, and only maybe half of the scenarios are semi-interesting (and probably a smaller portion is something you'll actually have a chance of living through). The how-to's for each scenario are very brief, which is a shame. Some are almost pointless, due to how brief or vaguely it's described. Think of this as more of a novelty guide for the bathroom or coffee table, that occasionally has the interesting topic to read.If you're looking for a legitimate, hard-core survival guide, pass on this one and grab something a bit more serious.0 of 0 people found the following review helpful. Gets 2 stars because there is a handful of interesting crap in itBy C. priceWasnt at all what i expected. More of a parody than a survival guide. Among the entries: how to fashion an emergency menorah and how to chase off christmas carolers. Basically its liberal perspective disguised as a survival guide for entertainment. Gets 2 stars

because there is a handful of interesting crap in it. 0 of 0 people found the following review helpful. #2 sessions approved. By Mays Effect packed with mostly funny slightly useful information. Great for the old 1 hour #2 session. Not as good as "why are dogs noses wet". Cons - thick and square design makes reading slightly annoying. Kind of like my bullet point paragraphs :)
