grade son loves this book and won't let me read it (but of course I did). It has fun and informative text written in the worst case scenario style with pictures as well. He said it really has helped him cope with situations at school. Thankful to find a good book we BOTH like! 1 of 1 people found the following review helpful. Love this book! By Amber McVay This is a really great book full of helpful and needed information. My daughter loves it. She is so worried about starting middle school and this just helps ease her anxiety a little bit.

Homework, hormones, heartache...middle school has no shortage of perils. Never fear, the authors of the best-selling Worst-Case Scenario series return with a survival guide for those who are facing or just about to face this big transitional time in school and life. The handbook is packed with funny-but-useful tips for the trickiest situations that crop up in middle school, like taking charge of a too-busy homework schedule, dealing with a cold shoulder from a friend who has suddenly become just too cool, avoiding common e-mail and cell phone disasters, and more.
