I was excited to start reading some of this advice, but once I started, I wondered why I even bothered buying this. Most of the tips in this are pretty stupid and just obnoxious, and the "good" advice were mostly just common sense things anyway. The only part of it that I enjoyed and found useful was the section on how to put out a microwave fire. Obviously, others enjoyed this though, so maybe it just depends on the person and their

situation. I mean, I know who my roommate will be, and I won't be having to use a public bathroom, just for some examples. Also, some of the sections that other reviews are mentioning weren't inside my Kindle version, so maybe I'm missing something...2 of 2 people found the following review helpful. Great for Many Things - Including a LaughBy A ReviewerI must say - I got a big kick out of this book. While I don't question its credibility (the authors name all of their sources (experts in their respective fields) in the back of the book) I had a hard time not laughing at some of the instructions. Even if I never use any of the instructions in the book, it will be worth the money I paid for the laughs I got.It is also very interesting. A lot of the situations are those one would expect to find in your typical action movie. To compare how this book says to execute a maneuver and how they are executed on TV or in a movie is interesting.If you're an outdoorsman, a computer scientist, a homemaker, or a person who knows how to read and has a sense of humor, I would recommend this book as something to at least skim over sometime.0 of 0 people found the following review helpful. Fun bookBy RD4I can't take this book serious. But it is fun to read. I hope I never need to know how to deliver a baby or escape from a shark, but it was very entertaining. My kids really enjoyed it. It's fun to add to the library.

Vampires, zombies, aliens, mummies, dragons. Yes, even the weird, unexplained, and other-worldly need to be survived! The authors of the best-selling Worst-Case Scenario series are back with a hilarious (and helpful!) handbook that's a blast through space, time, history, and the imagination. Find out how to survive a Mars landing, fight a werewolf, deal with a Bigfoot sighting, outwit a leprechaun, prepare for time travel, and more. Peppered with historical and scientific facts, this book will amaze, amuse, and delight. Kids will get the scoop on how to handle the weirdest situations Worst-Case Scenario-style!

From School Library JournalGr 5-8—Readers will be amused by this latest addition to the series. Filled with tips on how to survive the bizarre—an alien abduction, vampires, and zombies, and how to pack for time travel—this humor-filled selection actually gives some practical facts to go along with the weird. Kids learn how to handle a UFO sighting, how to evict a ghost, and what to do just in case they stumble onto a cursed tomb. The tongue-in-cheek illustrations are the icing on this enjoyable book.—Esther Keller, I.S. 278, Marine Park, NY?(c) Copyright 2010.
