Who would have suspected that the darling little Yorkshire Terrier might have something to hide? Up until now we've assumed there's really not a whole lot going on in those pretty little heads. Well, now there's revealing new evidence that suggests otherwise. As it turns out, Yorkies are, get ready for this, diligent diary keepers. Yes, it s really true, Yorkies like to journal. A rash of Yorkie diaries has been uncovered lately (through an anonymous source). The Yorkie Diaries is a compilation of just some of those once private Yorkie files, sure to enlighten and entertain the yorkiephile in you! Entries on naughtiness, on being a terrier, on all that hair and, of course, true confessions (some sweet, some snarky) combined with candid color photography of the contributors in action, make for a revealing peek

into the minds and lives of these precocious, and precious, little companions.
