**Yu Yugami : Those Who Hunt Elves Volume 5** before purchasing it in order to gage whether or not it would be worth my time, and all praised Those Who Hunt Elves Volume 5:

0 of 0 people found the following review helpful. Great manga!By DJThis is a really interesting and enjoyable manga series (although may not be suitable for younger children). The series is about three people from Japan who are pulled into a fantasy world. Their mission: to get back home! Subplots include humorous variations of some fairy tales.In this book is the second and final half of a long story arc involving a megalomaniac elf who held the fantasy world hostage.Fun to read. And read again.

The elf hunters are still stuck in the domain of the evil elf Madame Grandbelle. Her goal? To take over the world and

control everything in it! Our elf hunters set out to free the people from her iron yoke, making a few friends in the process. But they could use a little extra gold as they set out on this task, so they decide to enter...a museum management contest! With a little ingenuity, they manage to come out on top, but who could've guessed that when it came time for the final showdown, our heroes would come face-to-face with the chance to return home?
