**Michael Domis, Peter Pauper Press : Thoughts from the Commode (Mini Book) (Charming Petites)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Thoughts from the Commode (Mini Book) (Charming Petites):

My husband thought it was great that I snuck this in with the potpourri in our half-bath - classy, right?! This little gem is filled with tons of interesting factoids and is a fun accessory for any bathroom.2 of 2 people found the following review helpful. Potty HumorBy Clark A. SteelmanA funny anecdotal book about the history of the toilet, various jokes, epithets, and just funny stuff about potties, poop, and all kinds of bodily functional, stuff. I liked it4 of 4 people found the following review helpful. Taking The Porcelain CruiseBy Robert I. HedgesThis is a tiny book about a mercifully frequently overlooked aspect of human existence. It has sections on toilet history (Thomas Crapper, interestingly, did not actually invent the toilet, but apparently purchased the patent for it), toilet humor, and quotes about toilets from such luminaries and Rod Serling, Joey Bishop, and Lyndon B. Johnson (which certainly seems appropriate). The book also covers commode trivia, a section of toilet haiku, and a concluding "pottyscope" feature that divulges horoscope information for each star sign that is sure to intrigue you (if you happen to be a raving lunatic.) Mine, for instance tells me that as a Leo my bathroom is luxurious and first rate, with a padded, expensive, electrically heated seat, and that I use scented rose oil as an air freshener. As with most horoscopes, there is one small nugget of truth in this prediction, but I'll never tell

which nugget it is. This book is a perfect sticking stuffer for the oddest person on your Christmas shopping list.
