**Ursus Wehrli : Tidying Up Art** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Tidying Up Art:

0 of 0 people found the following review helpful. neat  
By Miss LIf art is meant to make viewers think, this book succeeds on every level. Not only did I gain perspective, I laughed hard. This would be a great gift for an artist, a mental health professional, a housekeeper, or a school library.  
0 of 0 people found the following review helpful. Three Stars  
By Martha ColeThe book was fairly expensive and came "dinged" on the corners.  
0 of 0 people found the following review helpful. For my OCD friends  
By J. DreznerThe best for all my OCD friends. LOL.

Who says great masterpieces can't be improved upon? In his humorous reconfigurations of important paintings, comedian Ursus Wehrli deconstructs the works of famous artists and reconstructs them to fit his own slightly more orderly view of the world. Art is messy, and it's about time someone did something about it. Sort those shapes, arrange those colours and for goodness' sake can't Van Gogh straighten up his bedroom? Neatniks and art lovers alike should delight in the whimsical playfulness of this book. Whether he's rearranging Magritte's apples, chromatically stacking Klee's vibrant squares, or depopulating Breugel's busy village, Wehrli's tongue-in-cheek editing of classic artworks is the next best thing to painting a moustache on the Mona Lisa.
