When I heard about this book originally, it was print only. That made me sad, but recently it became available on Kindle. I happily bought it. You will be happy when you buy and read it. You may also weep for the insanity that it uncovers through these Tinder exchanges.I am extremely happy to not be on the dating scene any more. People are crazy, Elan knows it. Between this book, producing his TV shows (That I won't watch, because they make me very sad for all involved...) he shines a light in some very dark places.2 of 2 people found the following review helpful. The book is funny and definitely what we were expectingBy KellyI bought this as

a gift for my friend. The book is funny and definitely what we were expecting. However, I was VERY unhappy when I opened the package and saw marks on the front cover. It was especially disappointing since it was a gift for someone else. I'm assuming the marks are from glue or something similar. Luckily they aren't too bad, but definitely noticeable. Anyway, if you're looking for a funny read that's guaranteed to make you laugh, this is a good purchase. 2 of 2 people found the following review helpful. Awesome conversation piece but beat up book. By kaliAwesome conversation piece. I purchased this as a gift for someone who loves the Tinder Nightmares Instagram page. The book itself is super fun and filled with hilarious "nightmare" conversations. The book itself was slightly beat up when it arrived but I didn't have time to exchange it. The cover was dusty and had markings on it. Surprisingly, this is the first book I've ever received in this condition when buying a new book from .

Tinder Nightmares is a hilarious look at some of the most epic fails of the often racy, always ridiculous, “romantic” exchanges on Tinder. The Instagram account of the same name has skyrocketed to popularity for its captivating—and sometimes titillating—ability to capture the real-life conversations between people who are looking to connect with that special someone. Tinder Nightmares is organized by theme, with chapters such as Bad English, Broetry, Strange Requests, Sneak Attacks, and more. This book explores everything from pickup lines to breakups, and all the moments that come in between. It's the perfect gift for anyone who has ever suffered through online dating.
