Now that we are training our 2nd child, I couldn't imagine not having some music to help pass the time as our son sits on the potty. This book is the most requested potty training book at our house! 0 of 0 people found the following review helpful. Clearly described but needs more melody variety By Rebecca Bley This was super repetitive - the same songs were sampled several times. I would have preferred a larger variety of songs. FWIW, my husband refuses to read this out loud. He is embarrassed to say all the words! My mother also refused some of the songs as too absurd. My toddler seems to like it, and still quotes from it. 0 of 0 people found the following review helpful. great tool By momwiththreeboys After tormenting my poor firstborn with "Potty Training in a Day" (Don't do it!) I tried a more fun loving approach with boy #2. We relaxed on the little potty each morning with this book. My son is very musical and LOVED this. He sat for a long time to listen and begged for more. Some days he sat for so long he got a red ring on his bottom and I had to tell him to get off the potty...but he trained pretty easily! Yea! Better yet, when I took him potty at night before I went to bed and he was half asleep, I could always stimulate him to pee by singing a song from the book...nice tool for that too! I would highly recommend this, but buy it new; as it hung out in our bathroom, it was dribbled on by uncoordinated little children

many times! I'm looking forward to using this with boy #3.
