Sophie also likes to read "My Cat is Better Than Your Dog" to me. She is 9 and we like to discuss the drawings as much as the words.0 of 0 people found the following review helpful. This book contains the same delightful quirky-ness and playfulness that her first book had. I chuckled many times while reading this book- both at the obvious humor designed for kids as well as at the more subtle references that speak to adults. Alyson Laurel brings such insight and creativity to both the text and graphics. I highly recommend this book especially for pet lovers!

Original hand drawn color cartoon-style illustrations laced with witty rhyming verses humorously reflect scenarios we can all relate to showing how Dogs are better than Cats. No matter what your age, you'll laugh at every page! Have a friend who could use a lift? Then send them this book as a gift!

About the AuthorI love all animals and enjoy the special friendship they provide. Pets offer us humans endless

patience and an open ended invitation for unconditional love. Dogs and Cats are family members. They sleep on our beds, we pet them, talk to them, and rely on their comforting presence. They also constantly entertain us. I get a kick out of creating comics that exaggerate and anthropomorphize funny scenarios they present. Although I am admittedly a crazy cat lady, this book celebrates the human-dog bond while playfully teasing cats.
