Repeat reader hereBy miss_scarlettAll of Davis' books are comical but this one is hilarious due to my own love for travel and the snafus that have unfolded over the past 3 decades (plus being southern a teacher). I will be using my summer school work commute for reading more of her books.1 of 1 people found the following review helpful. Funny and nostalgicBy CustomerReally funny, reminds you of family

vacations growing up. I enjoyed the stories when she was a kid more than as an adult traveling with her own family. There is just something magical about the vacation experience through the eyes of a child. 1 of 1 people found the following review helpful. Thank you Heather Davis!
