Matt Master : Top Gear: Where's Stig?: Glovebox Edition before purchasing it in order to gage whether or not it would be worth my time, and all praised Top Gear: Where's Stig?: Glovebox Edition:

0 of 0 people found the following review helpful. Where's Waldo with Turbo!By B. RadacsToo much fun and very addicting. Not only can you search for the Stig, but also for Clarkson, May, Hammond, and various other Top Gear items. This is the glovebox edition, so it's a smaller size (perfect for a stocking stuffer), but you will find your friends and family packing in together as if they were in a clown car, just to get a gander at this book! A definite must for the Top Gear aficionado.1 of 1 people found the following review helpful. Great gift!By NikkiI gave both of the Where's the Stig books to my boyfriend as a joke for Christmas to go along with his I Am The Stig t-shirt. We went through both books Xmas night and it was fun to recognize scenes from the show. Some of the items were hard to find, so it was challenging to both of us and that made it enjoyable.I do wish I had purchased the full size editions as the glovebox editions are a little too small (we have both has Lasik and have perfect eye sight to give you an idea). Since it was a joke-type stocking stuffer, I bought the smaller editions. I will buy the next one in the full size edition.4 of 4 people found the following review helpful. Perfect Gift for Top Gear Fan!By C. MobergIf you know someone who is

a Top Gear fan who has a good sense of humor they should get a good chuckle out of this. There's nothing to the book other than the art, so don't expect much. It makes for a great conversation starter as a coffee table book. As others have said, this is not the best book for children. I don't think most parents would be horribly offended by the images, but not meant to be a children's book.

A new, smaller edition of Top Gear: Where's Stig perfectly sized for the glove compartment

"Where's Stig? Will give Top Gear fans hours of fun." Press Association
