have no idea where she gets her ideas or theories or what they're based on but they're seriously flawed and most make zero sense. My mom loved this book, constantly quotes this silly author. Her dog, is hands down, one of the worst trained dogs ever. What is sad, is that when she got her as a puppy - she was trained. She was a rescue that had a wonderful foster family that trained her so well! Over time with my mom, she actually became untrained - unlearned her good behavior, and learned lots of bad behavior. Fortunately, she's a very sweet dog, so it's not the worst thing in the world. But now she begs, never comes when she's called, sniffs crotches, doesn't listen, doesn't just beg but actually eats off the table...the list goes on. I hold this book partly responsible. Obviously not totally, or even a lot - but it did have a significant effect. I really, really wish my mom had never read this book, and certainly regret her following anything the author says in it. 0 of 0 people found the following review helpful. Excellent guide to training people! By W. B. King Hilarious! And so true it seems. I laughed and laughed. 0 of 0 people found the following review helpful. ... By Juliettegr8 present for dogloving friend she loves it and its so cute and even the shape of the book (curved a bit at the edges) is cute and nice. i didn't read it cos i didn't wanna bend the pages but she's way into it so get it! i read so many dog book reviews and i think this one really was great for her! she's fond of many dog books already

For centuries, dogs have known that they, not humans, run the show. But not all dogs know how to get the best from their people. Finally, from the leading expert in the field comes a straightforward, easy-to-use manual that's written for dogs by a dog. This indispensable reference provides foolproof advice on obtaining everything a dog deserves, from the best food and exercise to grooming and chauffeur services. Here are all the tools a dog needs for selecting, training, and living with a well-behaved human.

"Mankind has a lot to learn from dogs, especially Labs and Tess is a master teacher." Tom Brokaw
