Great gift option for the frequent travelerBy Travel GirlI gave this travel inspired coloring book to a group of friends as thank you presents for traveling with me to Europe for my birthday. The books coloring pages are really nicely laid out, I wasn't at first a fan of some of the gold coloring already done on some of the pages, but as I started to look at the page layout, I started to see how pretty the accents were. My friends loved the books, and I've since looked for other travel inspired coloring books to possibly give to family as stocking - stuffers for the holidays.0 of 0 people found the following review helpful. Don't care for this style of color bookBy KB of MAMany of the pages in the coloring book have areas that are pre-filled with printed-on color. I don't care for that type of coloring book. I want to have all the color options.
