This was a good book but now one of my favoritesBy Maggie SheltonThis was a good book but now one of my favorites. It had a lot of sad times in it which some people may like. I prefer books that are uplifting and I did not feel this one met the test for that. The story is well written, clean language, and appropriate for any adult to read. There is no sex,, foul language, etc. found in the book and that is good.0 of 0 people found the following review helpful. I enjoyed the bookBy LeastinI enjoyed the book. The author described a place I wouldn't enjoy but could see it was just the right place for the characters to move in and out of.
