Very misleading. No where in the description did it say that there was less than half the content of the original.0 of 0 people found the following review helpful. Not safe for all.By MindriotThe title says it all.I remembered this book from the '80s, and bought it for nostalgic reasons.However, if you know anyone who is easily offended, do not leave this one laying around your house!

Disgusting, abhorrent, and just plain terrible. But people love them. Tackling every taboo subject, this truly tasteless little book proves that there's nothing too sacred to be laughed at. After all, it was a #1 bestseller.
