grade school....that I wasn't supposed to read but people would bring their parents copies to school and there were plenty in the bookstores. Very misleading. No where in the description did it say that there was less than half the content of the original.0 of 0 people found the following review helpful. Not safe for all.By MindriotThe title says it all.I remembered this book from the '80s, and bought it for nostalgic reasons.However, if you know anyone who is easily offended, do not leave this one laying around your house!

One book wasn't enough. Demand was too great. The truly tasteless among us insisted on more outrageous insults, crude wit, and disgusting observations. Once again, no group is spared and nothing is too sacred to be ridiculed.
