Great poems and rhymes, and very well thought out! Funny, irreverent, and the perfect antidote for exposing Trump for what he is! All for less than a cup of coffee! I hope this writer/poet continues to follow the political arena, keeping up informed and laughing.

I haven't read much poetry lately, but this is definitely worth reading! The poems are well written and insightful. It sends an especially important message during a very critical presidential campaign.

Trumping Believe Me is well written, funny and true to fact. I voted for Trump as a protest vote and now that we got him, I hope he well stay true to his word. I digress... Back to the book review... I found it to be entertaining as well as informative. The poems are written in chronological order, so, you can follow Trump from the primaries right through the election. For better or worse. This book will be enjoyed by by Trump detractors and supporters alike. Kudos to the author!

A Poetic Satirical Six-Month Chronicle of the Campaign and the Candidate that helped, "Make America Hate Again!" This collection of twenty-six satirical poems were born as a personal cathartic exercise for dealing with the nomination of Donald J Trump. Only after sharing them with close friends did I realize they helped others cope with the angst of this Republican candidate. They were written over a six-month period from late May to early November. Most poems were event driven (primary, town hall, speeches, convention, debates, general election, etc.), while others were just an itch that had to be scratched. They are presented in the order they were written to add continuity to the reader's experience. This work is dedicated to all those whom have had their intelligence assaulted, sense of fair play violated, and belief in truth and honorable discourse trampled. It is a prescriptive for regaining your mental health, and a tonic for the indigestion in your soul. Recommended for all fact based Democrats, Republicans and Independents.
