It makes you question a lot of things happening within our government. I very much enjoyed the read.1 of 2 people found the following review helpful. A very funny handbook that exposes political corruptionBy CustomerA very funny book explaining the rise of Donald trump and

fall of Hillary Clinton. I had no idea politics was so corrupt until I read this book. Worse than I could ever have imagined. The book is written by a professor so every fact is verified, but in a Trump tone of voice, which makes it a piece of black comedy and a bit artsy. 2 of 5 people found the following review helpful. One Star By CharlesLeonard Nothing new or intelligent here.

Donald J. Trump has changed politics forever with his bulldozer, drain the swamp policy that plans to smash all the rampant political corruption and political correctness that has choked America. Trump pulls no punches and is the classic American tough guy who uses the philosophy of "Trumpism" to always come out a winner. "Trumpism" by A.J. Brent explores how "Trumpism" has defeated all of Washington D.C., Obama, and the Clintons and how ordinary people can use it to bring success and real change to the world, while documenting the fall of the political establishment and the rise of patriotism and Americana through Donald J. Trump.
